## Sen. LeRoy Collins Out For Governor

State Senator LeRoy Collins of Tallahassee will run for governor to fill the unexpired term of Dan McCarty.

Collins, 44 year old attorney and a veteran of 18 years in the legislature, announced his candidacy the day after the Florida Supreme

Court ruled that an election will have to be held to fill the office.

In his formal announcement he pledged to fight for "a government which is morally clean" . . . is efficient and not wasteful of the taxpayer's funds. . . . He promised to take his "program and message straight to the people."

Collins, who was one of Dan McCarty's closest friends and advisors and who is expected to advocate many of the principles laid down by the late governor, has made it clear that he is running on his own record and will have a platform of his own.

Collins served in the Florida House of Representatives beginning in 1935, and in the Senate since 1940, except for one term when he was in the U. S. Navy.

In newspaper polls he has been twice designated "most valuable senator" and after the 1953 session, the legislators named him "most valuable" all around member.

His committee chairmanships include appropriations, finance and taxation, constitutional amendments, education and governmental reorganization.

## Conner's Hiway Rebuilding First In Requests From SRD

Rebuilding of Conner's Highway from Twenty Mile Bend to Canal Point has been placed at the top of the county's list of proposed road and bridge projects for the coming year. Commission action to make the Conner's Highway project the top priority job for the coming year was led by Paul Rardin, Canal Point, who for the past several months has been a strong advocate of putting this important highway at the head of the county list.

The Glades highway has suffered considerable damage in recent months due to high water and was

closed for several weeks while repair work was carried out. The rebuilding program for this strip of the county road system was one of several being sought by the county commission which Monday adopted its road and bridge program for the year.

Next in importance to the Conner's Highway project, was completion of four-laning U. S. Highway 1 across Palm Beach County.

Other Glades projects in the road and bridge repolution which was submitted to the State Road Department were as follows:

Recommended control  
of wireworm and  
other soil pests  
... on all Florida  
vegetable crops

# aldrin

LAST YEAR aldrin established a fine record of soil pest control on Florida corn, sugar cane and sweet potatoes. Now aldrin is recommended by Florida Experiment Stations for use on every important vegetable crop in the state.

Aldrin gives you these  
important control advantages:

1. **Powerful killing action**—all-season freedom from soil pest damage with just one application.

2. **Chemical stability**—Aldrin remains stable regardless of the pH of the soil (acid or alkaline). This stability holds even when aldrin is mixed with fertilizer.

3. **Can be used two ways**—in an aldrin-fertilizer mix, or sprayed directly on the ground and harrowed in.

4. **Low per-acre cost**—a direct result of aldrin's high killing power.

So—for healthy crops get aldrin. Your fertilizer or insecticide dealer can supply you.
